

# Quadrotor Components

## Lecture 2 | Quadrotor Components

# Draft

The main components of a quadrotor are

# Quadrotor Components

## Lecture 2 | Quadrotor Components

# Draft

The main components of a quadrotor are

- the frame, gives physical support for the other components. It consists of a center and four arms

# Quadrotor Components

## Lecture 2 | Quadrotor Components

# Draft

The main components of a quadrotor are

- ▶ the frame, gives physical support for the other components. It consists of a center and four arms
- ▶ electronics and a battery, in the center of the frame

# Quadrotor Components

## Lecture 2 | Quadrotor Components

# Draft

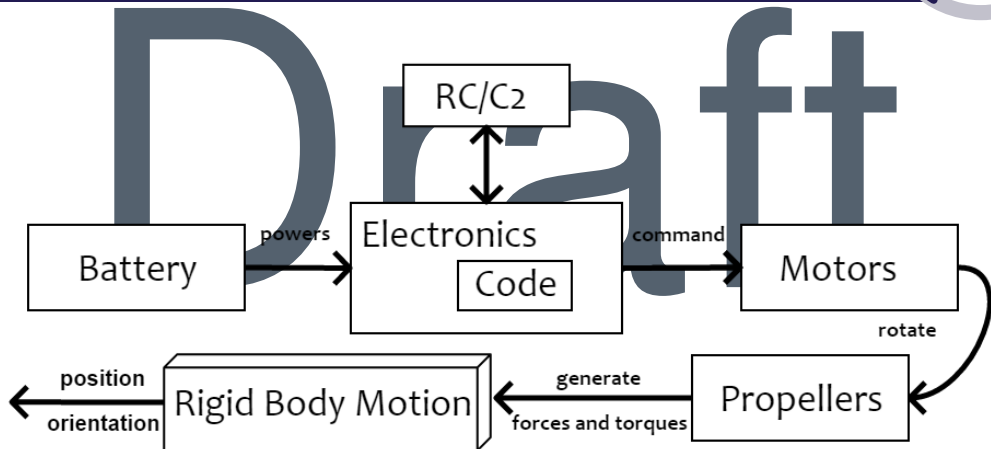

The main components of a quadrotor are

- ▶ the frame, gives physical support for the other components. It consists of a center and four arms
- ▶ electronics and a battery, in the center of the frame
- ▶ a motor and a propeller, on each arm
